

DEAR READER!

Your attention is invited to the next issue of the journal of the Faculty of Economics of the Ukrainian State University of Chemical Technology.

This issue of the journal is devoted to many sections of the economy – from applied to purely fundamental. The issue includes articles on the problems of the regional energy sector as a driver of the post-war development of the Ukrainian economy, problems of anti-crisis post-war management, the results of the study of educational technologies in the distance training of economists, investment processes in Ukraine under the influence of quarantine restrictions, the use of effective marketing tools in environmental resource-saving technologies, management of the intellectual capital of the university in the system of its innovative development.

The journal continues a good tradition and publishes articles in this issue not only by world-famous scientists, but also by young talented researchers.

The Editorial Board of the journal would be grateful for feedback on the materials published in this issue, and looks forward to cooperation.

And now, taking this opportunity, I want to wish your loved ones a peaceful sky over your head and all the best, and you, dear colleagues, to achieve new scientific results that will help the post-war reconstruction and development of Ukraine.

With best wishes,

Larysa Harmider,

Editor-in-Chief of the Collection of scientific works «Economic Herald of State Higher Educational Institution «Ukrainian State University of Chemical Technology»,

Doctor of Economic Science, Professor
